#### **WHY I AM A TEACHER:**

“I wanted to go into theater, but my parents didn't  
want to pay for college for that. I always enjoyed  
physics as well as my work as a camp counselor, so  
this is just a combination of all the things I like to do.”

*“Teachers provide a foundation for life as we know it.  
Without them there would be no doctors, police officers,  
authors, scientists, engineers...virtually every vocation. We  
appreciate and acknowledge their commitment to making  
our world a better place.”*
