***CROWN POINT COMMUNITY SCHOOL CORPORATION***

***KINDERGARTEN MEDICAL-PHYSICAL RECORD***

Dear Parents:

To help your child have the best possible start in school he/she should be in the best physical condition. You are asked to take your child to your family physician or pediatrician for a medical examination and to your dentist for a check-up. If any immunizations have not been completed or if boosters are needed they should be given as soon as possible; your doctor would prefer to do this before the summer months.

The School Immunization Rule (410 IAC 1-1-1) states that, "the adequately immunizing doses and the child's age for administering each vaccine shall be those recommended in the current Report of the Committee on Infectious Diseases of the American Academy of Pediatrics (AAP) or those currently recommended by the United States Public Health Service, Advisory Committee on Immunization Practices (ACIP)."
Upon enrollment of a student in any school corporation in the State of Indiana the parents must furnish proof of the following:

1. The minimum Immunization Requirements for all children newly enrolled in kindergarten.

   - 5 doses of diphtheria-tetanus-acellular pertussis (DtaP), diphtheria-tetanus-pertussis (DTP), or pediatric diphtheria-tetanus vaccine (DT) or 4 doses are acceptable if the fourth dose was administered on or after the fourth birthday and at least 6 months after the 3rd dose
   - 4 doses of inactivated polio vaccine (IPV), with the 4th dose being administered on or after the 4th birthday and at least 6 months after the 3rd dose or 3 doses of IPV are acceptable if the third dose was administered on or after the fourth birthday and at least 6 months after the 2nd dose
   - 2 doses of measles (rubeola) vaccine, first dose on or after the first birthday
   - 1 dose of rubella (German measles) vaccine, on or after the first birthday
   - 2 doses of mumps vaccine, on or after the first birthday
   - 2 doses of varicella (chicken pox) vaccine with first dose on or after 1st birthday and second dose at least 3 months later or documented date of disease from your physician
   - 3 doses of hepatitis B vaccine appropriately spaced with the 3rd dose on or after age 24 weeks and at least 8 weeks after the 2nd dose
   - 2 doses of hepatitis A vaccine, first dose administered on or after first birthday with 2nd dose given at least 6 months later.

   Indiana has only two exceptions to this law, a medical exemption or a religious objection. (Parent must provide the school verification of exception each school year.)

   - **Religious** – Parents must provide the school with a signed exemption form stating that the objection to immunizations is based on religious reasons.
   - **Medical** – A signed physician's statement that a <u>particular</u> immunization is **detrimental** to the child's health must be provided to the school.

   **<u>Refusal or neglect to comply with this law will result in mandatory exclusion of the child from school until compliance has been met. (Public Law 130, Acts 1976)</u>**

   **ALL FORMS MUST BE RETURNED TO THE SCHOOL BY THE PARENT ON OR BEFORE THE FIRST DAY OF SCHOOL...NO CHILD WILL BE ADMITTED TO SCHOOL UNTIL ALL FORMS ARE ON FILE.**

Children and Hoosiers Immunization Registry Program (CHIRP) –
Consent Form

CHIRP is an internet based immunization registry for the state of Indiana operated by the Immunization Program of the Indiana State Department of Health (ISDH). It is designed to obtain immunization information of patients for tracking their immunization history and future immunization requirements. Your health care provider (your physician, etc.) may already have entered immunization data on your student. Patient information is confidential and only available to the authorized users. All schools reporting to the ISDH under IC (Indiana Code) 20-34-4-6 are required to use CHIRP to record immunization data for every student enrolled in each school. According to IC 20-34-4-1a, "The records must be kept uniformly throughout Indiana according to procedures prescribed by the state department of health." Please complete the permission form below. Any questions can be directed to the Indiana States Department of Health, 2 North Meridian Street, Indianapolis, IN 46204.

I give permission to release the following information concerning my child to the Indiana State Department of Health's Children and Hoosiers Immunization Registry Program (CHIRP).

I understand that the information in the registry may be used to verify that my child has received proper immunizations and to inform me or my child of my child's immunization status or that an immunization is due according to recommended immunization schedules.

I understand that my child's information may be available to the immunization data registry of another state, a healthcare provider or a provider's designee, a local health department, an elementary or secondary school, a child care center, the office of Medicaid policy and planning or a contractor of the office of Medicaid policy and planning, a licensed child placing agency, and a college or university. I also understand that other entities may be added to this list through amendment to I.C. 16-38-5-3.

I hereby consent to the release of my child's immunization data including the following information:
